Focus on

Special on the building industry: don't miss it!

The issue of 'Al-Aluminium and its Alloys' made available these days is addressed to the building and architecture world and offers several articles on current affairs and market, technical cues and information from the companies, but also close-ups on beautiful and practical realizations. A topical example is the article "Ground Zero re-starts from seven" that shows the first of the seven towers that will be built on Ground Zero. This tower has been designed by the architects' practice Skidmore, Owings & Merrill in New York and the curtain wall has been designed on purpose by the Bleu tech division of Permasteelisa USA (Canada) with an aluminium frame realized with Metra by-the-drawing profiles. The article "World of architecture 'upside down'" brings the readers to Copenhagen to the discovery of an original work realized with aluminium composite panels by Reynobond Architecture. Very ..read more

Rusal closes another transaction

Rusal has recently closed the deal to acquire a majority stake in the Aluminium Smelter Company of Nigeria (ALSCON) in Akwa Ibom from the Nigerian Bureau of Public Enterprises (BPE). The transaction will add almost 150,000 tonnes annually to Rusal's aluminium production capacity. According to the terms of the deal, Rusal has received a 77.5% block of shares in Alsccon, a 193,000-tonne smelter (reduction, anode-producing and casthouse areas), a port on the Imo River and a power-generating station. Germany's Ferrostaal AG and the Government of Nigeria ..read more
