F.A.R.O.: 2008 edition on its way

A new F.A.R.O. meeting will take place on 27 and 28 March 2008, at the Kursaal Conference Centre in San Marino. It will be dedicated to the most current topics for those who must make strategic decisions and purchase raw materials (Non Ferrous Metals, Steel and London Metal Exchange prices, Scrap metal and Hedging Strategies, Technical Analysis of Stock and Foreign Exchange markets; International Economic Situation, Focus on China and India, Italian Metal Industry). The workshop on Thursday morning is dedicated to the Industrial Metals Operating Module (Modulo Operativo Metalli Industriali) which will provide an in- depth view of raw materials technical analysis, in particular copper, aluminium, nickel, brass, zinc, steel, etc. The afternoon workshop, called Trading Arena, will provide for an increased knowledge of hedging instruments, what they are, and how to use them (through simulations, ..read more

Rio Tinto Alcan and South African

Rio Tinto Alcan is in discussions with the South African government regarding the timing of the Coega smelter project near Port Elizabeth, South Africa. A team, consisting of members from government, Rio Tinto and Eskom, are reviewing the terms of the project in order to align its timing with the availability of secure power generation capacity from Eskom. Rio Tinto Alcan will work with the government to minimise the impact of a potential rescheduling on regional economic development. A long-term energy agreement for the proposed smelter was ..read more
