## Focus on

### The International Foundry Forum

The IFF (International Foundry Forum) will be held in Vienna from 18 to 19 september, at the Austria Trend Hotel Savoy. The event, organized by The European Foundry Association and the European Foundry Equipment Suppliers Association, is the 'summit' of the foundry world, the gathering of the CEOs world wide, of important casting users, ferrous and non-ferrous foundries, foundry equipment and consumable suppliers as well as high-level association representatives. Their main target is to increase the marketing opportunities for metal castings in competition with other processes and products in a global business environment. This goal is much better achieved by joint efforts of the market players and has to be supported by a common understanding of the market trends by all parties involved. The forum will offer the casting-related perspectives of the following industries: - oil field

## Latest picks

### New look for the Farnborough airport

The aesthetic structure of the Farnborough airport in London, mainly used by private aircrafts, has been recently renovated. The new structure is comprised of three elements: a 35-metre high control tower, an elegant and sinuous 4,000-sqm terminal, and a 12,000-sqm hangar. The

"Delta"

Alcoa: new renewable power deal for Wenatchee smelter  
Alcoa has reached agreement with the Chelan PUD on a new, clean-energy hydropower contract to supply its Wenatchee, Washington aluminium smelter through 2028. The new contract, which begins in 2011, will provide enough energy to enable the start-up of a third potline at the smelter in 2012. The new 17-year agreement begins when the existing contract expires in 2011. The agreement is another in a series of new, globally-competitive power agreements by Alcoa for its worldwide smelting operations. Including new agreements in Quebec, Alcoa now has
