Metalriciclo 2009 soon sold out

«In such a difficult moment as the present one, we have decided not to waste either time or money in low profile, general and scarcely important exhibitions. We have decided to support those who have been working

seriously for years to organize initiatives, dedicated to scrap and metals technologies in general, having a high profile and granting international visibility. On April 2nd through 4th, 2009, we will participate to Metalriciclo, the sole show seriously and comprehensively focussed on ferrous and non ferrous metal recovery and recycling, an event that has turned specialization into its main advantage» (William Minelli, Officine Minelli). «We are glad we have decided to participate to Metalriciclo 2009. This exhibition now also includes the thematic area of chip treatment, thus proving to be extremely farsighted and attentive to the market. The recovery and recycling of chips is ..read more

A look at the industrial production

Assomet, National Association of the Non Ferrous Metals Industries and historical partner of exhibitions such as Metalriciclo and Alumotive, to be held jointly on April 2nd through 4th at the Garda Exhibition Centre in Montichiari, has dedicated the opening of its last monthly newsletter to the global industry downturn, focussing on a recent study by Confindustria's Study Centre. According to the survey, the Italian industrial production closed year 2008 with a drop by 4%. The situation is still negative in January: -0.1% over December and -11.8% ..read more

MDM Solar-Logima to the service of car wreckers

MDM Solar, company based in Molinetto di Mazzano, near Brescia, and working in the photovoltaic system sector, will participate to Metalriciclo 2009 where it will have a booth exceeding 100 sq to be shared with its partner Logima (logistic and warehouse services). The ..read more
