Aluminium in Renovation Award

The European Aluminium Association launches the second edition of the Aluminium in Renovation Award. The competition, to run throughout 2009, will involve 14 European countries, a series of national competitions and a European final rewarding the most sustainable and original uses of aluminium in building renovation. For this second edition particular attention will be paid to energy efficiency. The National competitions are sponsored by the Aluminium For Future Generations programme (AFFG), in cooperation with the National Aluminium Trade Associations who are members of the European Aluminium Association (EAA) or of the Federation of European Window and Curtain Wall Manufacturers Associations (FAECF). The European contest is sponsored by the Building Group of the European Aluminium Association. National and European Aluminium Awards will be given in 2 categories: - Residential - Non-residential. The

Armenal foil mill reaches design capacity

Armenal, the Rusal's foil mill located in Armenia, reached its design capacity of 25,000 tonnes. From December 2008, the daily output of aluminium foil at the mill increased by half. It became possible due to a comprehensive

modernisation of the principal parts of equipment and implementation of advanced foil production technologies.

Since the beginning of 2007 when the modernisation was completed, Armenal has produced and sold a total of approximately 30,000 tonnes of finished goods. The fact that the metal working cash cost reduced by 42% in
